Trends and Developments in Corporate M&A 2020 in Mexico

Category: Mergers and Acquisitions, Publications

written by Nader, Hayaux & Goebel | March 2, 2021

Our partners [Julián Garza](#) and [Michell Nader](#), from Nader, Hayaux y Goebel, share their knowledge about the latest trends in the Mexican market for Corporate and M&A 2020, published in the last Chambers and Partners publication.

Change is the only constant - in everything, including the corporate and financial world. What has changed now is that we seem to be in an environment of permanent chaos.

The main factor that creates such a continuous state of convulsion is the complex “interconnectivity” that is now part of our lives, including our businesses. A new disruptive factor has recently emerged - COVID-19. At the present time, it is impossible to assess what its impact will be on the world economy, the financial markets, the labour sector and commercial and corporate activities. However, because of our interconnection as individuals, as countries, as elements of an economic chain that expands across the whole planet, it will certainly impact us all on a significant scale. Looked at from a purely business point of view, such impact will not only negatively affect certain economic sectors, but will also create numerous opportunities in the corporate and M&A sectors.
